The Indonesia import export trade sector contributes significantly to the overall GDP percentage of India. No wonder, the port is booming in this sector and at Seair, we better understand how to benefit you from this welcome opportunity. We comprehend the fact that the majority of import firms are active in sourcing distinct ranges of products including raw materials, machinery, and consumer goods, etc. Hence, we provide comprehensive import data solutions as well as export data solutions for broad categories of import trading firms and export trading firms too. Our Indonesia import data and export data solutions meet your actual import and export requirements in quality, volume, seasonality, and geography. Alongside we help you get detailed information on the vital export and import fields that encompass HS codes, product description, duty, quantity, price, etc. The export import data from Seair paves the way for successful partnerships that generate profit for business from both the local and global precincts. HS uses number code in classifying goods. The number code represents the goods description which is composed systematically. The numbering system in HS is divided into Chapter (2-digits), heading (4-digits), and sub-heading (6-digits) with the following explanations: For example, code HS 0101.11.xx.xx taken from BTBMI (10 digits) 01 01 11 xx xx

Two digits	Chapter 1	Heading 01	Sub-heading 0101	Sub-heading ASEAN, ASEAN Harmonized Tariff Nomenclature (AHTN)	Heading Indonesia Customs Tariff Book (BTKI) Chapter
01	01	01	0101	0101.11	0101.11.xx.xx

Two digits; the above example shows that the good is classified on Chapter 1. The next two digits or first four digits show the heading on the respective chapter; in this example the good is classified in the heading 01.01. The first six digits shows sub-heading of the respective heading and chapter. On the above example, the good is classified in sub-heading 0101.11. The first eight digits is the heading from AHTN text. The ten digits show the heading of national tariff taken from BTKI, the tariff heading shows the amount of charge (BM, PPN, PPnBM, or duties) and the trade regulation. HS has a six-digits number for the classification, each country that signed the HS convention or contracting Party can develop a classification of six-digit number to be more specific in accordance with respective Government policy while remains under the provisions of the HS six-digits. In Indonesia alone, the classification system uses 10-digits numbering system in Indonesia Customs Tariff Book (BTKI) which is a further elaboration of the sub-headings in the HS six-digit. Page 2 International transactions is now much easier to use the Harmony System Code, or another name is the HS Code. HS Code applies globally. The use of HS codes can facilitate the suppliers if they want to have international cooperation. Harmonized System or usually referred to as HS is a list of goods classification list made systematically for the purpose of facilitating tariff, trading transaction, transport and statistic which has been improved from the previous classification system. Currently, the classification of goods in Indonesia is based on the Harmonized System and is applied in a list of tariff called Indonesia Customs Tariff Book - Buku Tarif Bea Masuk Indonesia (BTBMI). HS uses number code in classifying goods. The number code represents the goods description which is composed systematically. HS Code will be classified into several sections according to the naming. In the HS Code grouping has several rules and specific measures. Hidradenitis Suppurativa (HS) is a common, painful, debilitating, and chronic inflammatory skin disease primarily occurring in inverse areas of the skin, e.g. axillae and groin. HS causes painful and chronically recurring, deep-seated follicular nodules, papules, pustules and abscesses, leading to suppuration, fibrosis, and scarring of the skin. Unfortunately HS has been labeled as a rare disease. But in fact it is not rare, it is only rarely diagnosed properly. HS affects at least 1% possibly 4% of the global population. It indiscriminately affects both males and females, and can be found in many countries, affecting many different cultures. I am also aware of at least one celebrity who suffers from HS. While death caused by HS is considered rare. It is my opinion that the morbidity rate is grossly unreported or underestimated. Due to the fact that many deaths are caused by suicides or complications arising during treatment. When an HS patient dies, various complications or other factors are listed as the primary cause of death. Thereby distorting the actual number of deaths caused by HS. Due to this method of recording deaths, HS is often overlooked as a serious or dangerous disease. Also, in my opinion, HS is often ignored by the media due to this underreporting of deaths coupled with the fact that it is an extremely horrendous disease. Over the years, we as an HS community have requested and even pleaded with various media outlets for assistance in spreading awareness regarding HS. Mostly we are ignored. Sometimes we are even told that HS is acne, and that no one has ever died from acne. I assure you that HS is NOT acne and people are dying from this horrendous disease. I am aware of at least three deaths caused by complications that have happened in the last year within our online HS community. But again, this is not an accurate picture as to how many people are dying from this disease. Many people who have this disease have yet to be diagnosed and/or are not online. I am certain that most deaths caused by HS are never recorded as such. There are millions of people worldwide who have this disease but have not yet been diagnosed. Please consider helping us spread awareness so that we can find these people before they commit suicide or die of complications. — Non Profit Organizations Supporting Research and Awareness Regarding HS: hs-foundation.org hs-usa.org SEAIR Exim Solutions is a leading data provider that can offer BTKI codes. These codes are helpful in import export business of products. Country wise HS Code
